REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens
of Lovell:

Following is my report of the conditions existing in
your schools for the year ending February 1, 1939.

At the last town meeting a vote was taken to maintain the Slab City School, but as the School Committee refused to give a written recommendation for it and the school failing to have an average attendance of eight, it automatically closed in June. These children have been conveyed to North Lovell together with those from the Palmer neighborhood.

Miss Eastman has continued her good work here to the satisfaction of the community and the School Committee.

The North Lovell Improvement League has raised money to install a new enameled sink which is greatly appreciated and also to furnish a traveling library.

While these pupils have not the advantages of those at the Village, they are making as satisfactory progress as can be expected in a school where the teacher has eight grades instead of three. However, everyone seems happy, so why expect more?

As the town would do nothing toward providing the Center children a suitable schoolhouse, the School Committee voted to close that school for the year 1938-1939 and send the pupils to the Village School. The vacant high school room was furnished for the sub-primary, first and second grades with Miss Adelaide Scott as teacher. Miss Eleanor Hebb was hired to teach grades three, four and five in the old primary room and Miss Irene Tubbs, who came highly recommended, had grades six, seven and eight in the grammar room. The school-

house was thoroughly renovated, some playground equipment installed and more lights placed in Miss Scott's room.

Miss Scott and Miss Tubbs are both fine musicians and have had charge of the music of the whole school with most gratifying results. Mr. Hurd plans for a school concert in the early spring that you may judge for yourselves.

We have provided school newspapers this year for all grades. Very few rural towns have taken this progressive step but we find that they are a great help in the reading in the lower grades, while the upper grades have "Current Events" which keep the pupils posted in up-to-the-minute news.

Our supply bill is large, due to buying more material for the art work and several new desks and small chairs for the primary room. However, we have saved the salary of an art supervisor, as our present teachers are able to carry on this work in a very satisfactory manner.

I could tell you much more about this school which might interest you but "seeing is believing," so I urge you to visit there before town meeting and see for yourselves.

We school people are convinced that the present arrangement is the best for the pupils of the Center and Village and respectfully recommend that it be made permanent.

The Dental Clinic work which was done in the fall resulted in arousing the parents to the need of more care of their children's teeth. Many of them were taken to the dentist for care.

Our elementary school registration is at present:
 North Lovell, sixteen; Village Grammar, twenty-three;
 Village Intermediate, thirty-four; Village Primary,
 twenty-five.

57

Our secondary school registration is: Fryeburg Academy, twenty-nine; Norway High, three; and Bridgton High, one.

In order to keep teachers of such ability as our present staff, higher salaries should be paid but we feel that we must not ask for an increase appropriation except for secondary school tuition over the cost of which the School Committee has no control.

Respectfully submitted,

LOTTIE M. PALMER,

Superintendent of Schools.
